

FRONT PORCH FLORIDA SUNSHINE

Front Porch Sunshine is a program that seeks to introduce solar water heaters to residents in Front Porch Florida Communities. The Front Porch Florida Initiative was created in 1999 as a means to rebuild distressed communities. Front Porch Florida takes up this challenge to revitalize underserved communities that are dedicated to positive cooperation and communication to make their community a better place to live, work, and play. The goal of Front Porch Sunshine is to help reduce the energy expenditures of low income households and to provide the opportunity for the solar industry to become partners in neighborhood revitalization efforts. Participating solar companies will be expected to embrace the revitalization initiative for the communities they choose to participate with, and become a valued asset to that community.
